Scope of this Report

The following groups of public libraries were invited to respond to the fourth annual Public Library Data Service Questionnaire:

❑ All libraries which participated in the 1990 *Public Library Data Service Statistical Report.*

❑ All libraries previously included in statistical reports of the Urban Libraries Council or "Statistics of Public Libraries in the United States and Canada Serving 100,000 Population or More" previously published by the Allen County Public Library.

❑ A randomly selected group of 400 libraries serving populations of 100,000 or fewer.

❑ All public libraries which contributed to the Public Library Development Project.

❑ Any other public libraries requesting inclusion.

Data from libraries in these groups may not be in the following report if the library did not return the questionnaire or if it was returned too late for inclusion.

This 1991 report includes data from 562 public libraries, 41 less than the 1990 report. This report also features for the first time, a Special Survey of Children's Services in Section VI.

I. Library Identification

Data reported in this section are arranged alphabetically by the name of the library. Data in all other sections are arranged by size of population served. Use this section to determine the size of the population served by any reporting library.

Responses to these questionnaire items are represented in the Library Identification tables.

The number of U.S. public libraries by population group are reported below.* For comparison, the number of libraries participating in the 1991 report also are given.

II. Financial Information

Data reported in this section are arranged by size of population served, in descending order from the highest to the lowest. If size of population served is unknown for a specific library about which information is desired, consult Section I, Library Identification, where libraries are listed in alphabetical order.

Responses to these following questionnaire items are represented in the Financial Information tables.

Derivative numbers were determined in the following manner:

$$\text{Expenditures per capita} = \frac{\text{Total operating expenditures}}{\text{Population of legal service area}}$$

$$\text{Salaries as a percent of expenditures} = \frac{\text{Expenditures for salaries and wages}}{\text{Total operating expenditures}}$$

$$\text{Materials as a percent of expenditures} = \frac{\text{Expenditures for library materials}}{\text{Total operating expenditures}}$$

$$\text{Materials expenditures per capita} = \frac{\text{Expenditure for library materials}}{\text{Population of legal service area}}$$

III. Library Resources and Community Measures

Data reported in this section are arranged by size of population served, in descending order from the highest to the lowest. If size of population served is unknown for a specific library about which information is desired, consult Section I, Library Identification, where libraries are listed in alphabetical order.

Responses to the following questionnaire items are represented in the Library Resources and Community Measures tables.

3. **Library registration.** Report this figure only if the library has purged its file at least once *within* the last three years. If not, indicate by putting N/A in the space. See Chapter 5 of OMPL2 for suggestions for determining this figure.

Library registrations _____

4. **Holdings.** For the purpose of this data service, holdings will be defined as in OMPL2: the number of cataloged items (number of items, NOT number of titles) plus paperbacks and videocassettes even if uncataloged. Do NOT include periodicals whether cataloged or uncataloged.

Holdings _____

B. STAFF (FULL-TIME EQUIVALENT)

Report figures as of the last day of the fiscal year. Include unfilled positions if a search is currently underway. Report FTE in terms of your standard work week as long as that standard week is between 35 and 40 hours.

10. **Librarians.** Report FTE of all who are: Staff members doing work that requires professional training and skill in the theoretical or scientific aspect of library work, or both, as distinct from its mechanical or clerical aspect. The usual educational requirement is a master's degree (or its historical antecedent) from a library education program. Include staff in managerial positions as well as in other positions.

Number of librarians (FTE) _____

11. **All other paid staff.** Include all other persons paid by the library budget **EXCEPT** plant operations and maintenance staff. Include paraprofessionals, clerks, pages and professionals other than librarians.

Number of all other paid staff (FTE) _____

12. **Total paid staff (FTE).** Total of Items 10-11. _____

D. COMMUNITY MEASURES

Items 24-28 below are optional. Age and education measures were selected for inclusion in the Public Library Data Service because they are known to be related to library service. These particular categories of age and education were selected because they are available for most legal service areas from the County and City Data Book *(CCDB). If you can provide the data easily from CCDB or a reliable local source, please do so. If your legal service area is not shown in CCDB or a reliable local source or if that source uses different subcategories for age (Items 24-26) and education (Items 27-28), please check the appropriate box in Item 23 and go on to the next page of the questionnaire.*

23. Availability of data for community measures. Please check one.

These data are *not* available for my library's legal service area.	a. ☐
These data may be available but I do not have the time to look.	b. ☐
These data are given below for my library's legal service area.	c. ☐

AGE

24. The percentage of people under 5 years old is _____ %.

25. The percentage of people from 5 through 14 years old is _____ %.

IV. Annual Use Figures

Data reported in this section are arranged by size of population served, in descending order from the highest to the lowest. If size of population served is unknown for a specific library about which information is desired, consult Section I, Library Identification, where libraries are listed in alphabetical order

Responses to the following questionnaire items are represented in the Annual Use Figures tables.

Please provide the latest data available regardless of fiscal year.

The data elements and output measures listed below are described in Output Measures for Public Libraries *(OMPL). Page references are given to data collection procedures in the second edition of this work (OMPL2, ALA, 1987). It is expected that you have followed these procedures or those described in the first edition (ALA, 1982). For Items 29-33 report separate figures for the central library (if any) and for all branches as well as a total. If you do not have a central library, put N/A in the space. For Items 34-39 report for the library as a whole (i.e., the central library and all branches). If an item is not available, mark N/A in the space.*

ANNUAL COUNTS

The following data elements are either exact counts or annual estimates based on counts taken on sample days according to procedures in OMPL. They will be used with population of legal service area to produce per capita measures.

	Central Library	Total for All Branches	Total
29. Annual circulation (OMPL2 p.42-44)			
30. Annual in-library materials use (OMPL2 p.44-47)			
31. Annual reference transactions (OMPL2 p.65-69)			
32. Annual number of library visits (OMPL2 p.37-41)			
33. Annual program attendance (OMPL2 p.71-72)			

F. INTERLIBRARY LOAN

40. Interlibrary loan. An item of library material, or a copy of the material, is made available by one library to another upon request. It includes both lending and borrowing. The libraries involved in interlibrary loan are *not* under the same library administration.

a. Loans provided to other libraries _____

b. Loans received from other libraries _____

V. Output Measures

Data reported in this section are arranged by size of population served, in descending order from the highest to the lowest. If size of population served is unknown for a specific library about which information is desired, consult Section I, Library Identification, where libraries are listed in alphabetical order.

The per capita figures in these tables were determined by dividing the following annual counts by the reported population of the library's legal service area:

- Circulation
- In-Library Use
- Visits
- Reference Transactions
- Holdings

The basis for the remaining figures is as follows:

$$\text{Collection Turnover} = \frac{\text{Annual Circulation}}{\text{Library holdings}}$$

E. OUTPUT MEASURES

Please provide the latest data available regardless of fiscal year.

The data elements and output measures listed below are described in Output Measures for Public Libraries *(OMPL). Page references are given to data collection procedures in the second edition of this work (OMPL2, ALA, 1987). It is expected that you have followed these procedures or those described in the first edition (ALA, 1982). For Items 29-33 report separate figures for the central library (if any) and for all branches as well as a total. If you do not have a central library, put N/A in the space. For Items 34-39 report for the library as a whole (i.e., the central library and all branches). If an item is not available, mark N/A in the space.*

G. LIBRARY ROLES

The roles listed below and a method for choosing among them are described in Chapter 4 of Planning and Role Setting for Public Libraries *(PRSPL, ALA, 1987). Please report on the status of role setting in your library by checking* **ONE** *of the options listed below.*

41. Status of role setting.

We have not yet used PRSPL to select roles for our library.
Skip to Section H **COMMENTS.** (a) _____

We used PRSPL to select roles but the ones we selected are different from the roles described in PRSPL. Skip to Section H **COMMENTS.** (b) _____

We used PRSPL and selected roles described there. Roles selected are marked below. (c) _____

42. For purposes of this questionnaire, we are interested in the roles your library selected using PRSPL. Mark each of your primary roles (but no more than two) with a "1" and each of your secondary roles (but no more than two) with a "2." Mark all other roles with a "3."

VI. CHILDREN'S SERVICES SURVEY

Since information is not readily available on youth services, PLA requested data this year on public library services for children and their caregivers. These summary tables only represent data provided by PLDS member libraries and should not be interpreted as an inventory. Other one time surveys may be included in years to come.

CHILDREN'S SERVICES SURVEY

PLA has offered to collect the following data on public library services for children and their caregivers. Please take a minute to complete this section. The results will be published in the Statistical Report 1991.

When answering this survey, ***Juvenile*** *is to be defined as anyone 14 years old and younger.*

43. If you cannot complete any of the questions, please check the box which best explains why:

These data are unavailable for my library's legal service area. a. ☐

These data may be available but I do not have the time to collect. b. ☐

44. Juvenile Holdings. This is the number of juvenile cataloged items (number of ITEMS, **NOT** number of titles) plus juvenile paperbacks and juvenile videocassettes, even if uncataloged. Do **NOT** include periodicals whether cataloged or uncataloged. Juvenile is defined as anyone 14 years old and younger.

Juvenile holdings _____

45. Juvenile Library Materials Budget. Include expenditures for material in all formats which are purchased for use by patrons 14 years and younger.

Expenditures for juvenile library materials $ _____

46. Juvenile Population of Legal Service Area.

Population of legal service area under 5 years old _____

Population of legal service area 5 years through 14 years old _____

(If necessary, compute the raw number for these two categories by using the % values in the *County and City Data Book*; refer to your answers for questions 2, 24, 25.)

47. **Annual Circulation of Juvenile Materials**. This is the total circulation (including renewals) of cataloged and uncataloged materials (in all formats) marked as juvenile, whether it is borrowed by a juvenile, young adult, or adult, over the course of a year.

Annual circulation of juvenile materials _____

48. **Annual Juvenile Program Attendance**. This is the actual count over the course of a year of the attendance, both adults and children, at programs which have a portion or all of their target market intended for 14 years and younger.

Annual juvenile program attendance _____

D. COMMUNITY MEASURES

Items 24-28 below are optional. Age and education measures were selected for inclusion in the Public Library Data Service because they are known to be related to library service. These particular categories of age and education were selected because they are available for most legal service areas from the County and City Data Book *(CCDB). If you can provide the data easily from CCDB or a reliable local source, please do so. If your legal service area is not shown in CCDB or a reliable local source or if that source uses different subcategories for age (Items 24-26) and education (Items 27-28), please check the appropriate box on Item 23 and go on to the next page of the questionnaire.*

Appendix B- Data Coding Decision Guidelines

The following coding rules governed the transfer of data from returned questionnaires to the summaries contained in this report.

General Rules

1. Data are accepted as reported.

2. If any item is redefined by the respondent on the questionnaire, enter NA or leave blank. Entries are not annotated to document exceptions.

3. If two or more responses are entered in one blank, and it is not possible to interpret the appropriate response, leave blank.

Statistical Rules

Procedures for determining low, high, median, quartiles, mean, and number reporting for a given field:

Values were arranged in ascending order.

The NUMBER REPORTING equals the number who gave a response.

The LOW equals the lowest number value in the sequence.
The HIGH equals the highest number in the sequence.

The MEAN or average is the sum of all responses divided by the NUMBER REPORTING.

The MEDIAN is the middle value in the sequence if there is an odd number of values; if the NUMBER REPORTING is an even number, the MEDIAN is the sum of the middle values divided by 2. If the number responding is less than 3, the median is not computed.

The LOWER QUARTILE (25%) is that number below which 25% of the responses fall. It is produced by dividing the number reporting by 4.

The UPPER QUARTILE (75%) is that number below which 75% of the responses fall. It is produced by dividing the number reporting by 4 and then multiplying by 3.

Fifty percent of the responses fall between the LOWER QUARTILE and the UPPER QUARTILE.

Rules Regarding Specific Questions

1. *Fiscal year.* If stated fiscal year ends after the date the questionnaire is completed, assume a typo on the year. Enter earlier date.

10-12. *Staff.* Enter as given, including totals. Do not recompute if line 12 does not equal line 10 plus line 11.

13-22. *Financial Information.* Convert Canadian dollars to American based on one standard rate for the entire report. $1.16 Canadian to $1.00 is to be used.
Enter income and operating expenditures exactly as reported. Do not recompute even if totals are not sums of items as indicated.

29-33. *Annual Counts.* If no branch or central breakouts are given, report items only in "Total" column.
Total circulation - if number reported is more than the sum of the branch library circulation plus the central library circulation, report as given. If it is less, use the sum of the branch and central figures.
